HISTORY & HERITAGE

The Auto Spare parts business was started in 1948 by late Mr. Muhammad Shafi Malik (Sitara-i-Imtiaz) under the name of Malik Auto store.

A vacuum existed at that time so the business flourished due to hard work and courteous dealings of the proprietor. Later on, his elder son Mr. Iftikhar Ali Malik joined him. His shrewdness and business I.Q. helped in exploring more business avenues.

In spite of competition, he achieved tremendous success, particularly by making bulk supplies of spare parts to government department and big transport companies. The prompt success in business made it feasible to enter manufacturing instead of only depending on imports. To attain this objective, Mr. Iftikhar Ali Malik previously trading in Auto spare, also founded Malik Auto Industries in 1960 to manufacture filters.

The word "agriculture" was added later to the name of company to include the manufacture of filters for tractors and other agriculture machinery and it was registered as a private limited company under the name of Malik Auto & Agricultural Industries (Pvt) Ltd. Thus it became the pioneer industry in manufacturing auto filters in Pakistan with late Mr. Muhammad Shafi Malik (Sitara-i-Imtiaz) as its first Chairman and Mr. Iftikhar Ali Malik as the Managing Director.

OUR MISSION

Our focus is on the Pakistani market to introduce trusted BRAKING SOLUTIONS for any vehicle within affordable range of our consumers. We want to be ranked as brake manufacturer of the international standards. Yet, we strive for being more than of your expectations.
